

The Fill-in Pinyin Writing Templates are one part of the innovative **VPC Supplementary Study Materials** program, which makes effective, high quality study materials for use in conjunction with the VPC Book and Study Guide. They're useful, effective, and they're **free!** Download and print them out at www.verypracticalchinese.com

These templates are actually the dialogue page for each of the dialogues, with the Pinyin and English taken away, leaving space for you to fill it in as you listen to the VPC Audio tracks or from memory!

Check your work against the VPC Book Dialogue. Circle your mistakes **in red**.

Mistakes are:

- If you misspell the Pinyin, **it's wrong** (can't spell, can't type!)
- If you mark the tone incorrectly, **it's wrong** (wrong tone = incorrect pronunciation = no one will understand you!)
- If you put the diacritical (tonal) marker over the wrong letter, **it's wrong** (It's picky, but why not be a perfectionist?)

Correct your mistakes and mark your score as a minus (-8 = eight wrong) aiming for a perfect score of "0"😊 .

In addition to writing the English gloss in the box, you might also want to write a word by word translation in English in the space between the lines, and then check your answers against the word bank or the Study Guide.

Good Luck and Happy Studying!
